About the Magner Career Center

Mission Statement

The Magner Career Center supports students in gaining the tools, knowledge, skills and opportunities essential for them to reach their career goals. Providing students, including immigrant or first-generation, with alumni connections helps them expand their professional networks. By collaborating with employers, alumni, as well as faculty and staff on campus, students prepare to be leaders who transform their professions and serve a truly global community.

A Word From Us To You

Your journey, academically and professionally, is ultimately yours to own. Our help comes in career counseling, job fairs, and resources that assist you. The Magner Center encourages students to take the initiative and seek services and guidance if necessary, but your path comes from the journey you choose to take. So choose wisely, and be proactive!
