

WEB Lab

About the WEB Lab

The ITS Public Computing Labs are located on the first floor of the West End Building (WEB). It is BC's largest, most modern computer facility. The Labs are home to over two hundred new computers and five classrooms. Referred to as WIN/PC room A, WIN/PC room B, SUN/UNIX, MULTIMEDIA, and Video Conference, these rooms can be reserved for classes through either the Scheduling Department or by the Lab managers. The Labs also have a room for Adaptive Technology. To reserve a room, fill out a Room Request form and bring it to the Front Desk at the Lab.
